

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sean M. McGinn on June 5, 2008.

The application has been amended as follows:

Amendment to claim 65

Claim 65.

(Currently Amended) A system while executing on a computer for detecting an integrity constraint violation in

a database interaction, comprising:

 a common constraint model for analyzing database schema, application type, and a mapping between said database schema and said application type;

 a generating unit for generating a check based upon said database schema, said application type, and said mapping;

 an inserting unit for inserting said check into one of said database and said application; and

 a determining unit for determining whether an integrity constraint violation will occur in said database interaction with said application based upon said check.
